FLAT FOLD WITH VALVE P2 RESPIRATOR

The Frontier P2 Flat Fold respirator with a three panel design, soft inner cover and adjustable nose clip ensures comfort and enables facial movements without compromising fit. A high quality and efficient exhalation valve also improves wearer comfort and breathability by removing heat build-up. The Flat Fold style can be easily stored or tucked away when not in use.

FEATURES & BENEFITS

- Provides P2 protection against mechanically and thermally generated particles
- 3-panel design fits a wide range of facial features better accommodating movement
- Highly efficient exhalation valve for improved breathing
- Flat horizontal fold for improved comfort and storage
- Low profile design for improved compatibility with other PPE
- Individually wrapped for improved hygiene
- Adjusted nose clip
- Bonded straps, no staples
- Twin elastic headband and adjustable straps for a secure fit

APPLICATIONS

Sanding, cutting, drilling, soldering, smelting, welding, waste sorting and general cleaning.

STANDARDS

Certified to AS/NZS 1716:2012 Respiratory Protective Devices. To be used in conjunction with: AS/NZS 1715:2009 - Selection, use and maintenance of respiratory protective equipment.

WARNING

1. Product should be fit tested before wear
2. Facial hair may compromise the required protective seal of the respirator.
3. Ensure the presence of adequate oxygen levels.
4. Must not be used in atmospheres that immediately dangerous to life and health (IDLH)
5. Ensure the contamination is known and the respirator is suitable for the application.
6. Replace when taste, smell or the breathing resistance is high.

DISPOSAL

These respirators:

- Should not be cleaned and reused
- Should be disposed of as solid waste after use
